PROVINCIAL TABLE I.—Area and population of tahsils

PROVINCIAL TABLE II.—Population of tahsils, by religion and education

TABLE I.

Showing the Area, Number of Houses and Population.

NOTE.—The variation in area from 1911 is caused by a number of changes of boundaries between districts due chiefly to fluvial action, and the transfer of 77 square miles from Saharanpur, Bulandshahr, Meerut and Muzaffarnagar districts to the Punjab and Delhi Provinces and 28 square miles from Ballia district to Bihar and Orissa Province. The formation of Benares State has caused a change of area in Mirzapur and Benares districts from which 870 square miles have been transferred to the Benares State.

For similar figures for tahsils see Provincial Tables nos. I and II.

TABLE II.

Variation in population since 1872.

Adjustment owing to changes of boundary has been carried out for—

Dehra Dun, Saharanpur, Muzaffarnagar, Meerut, Bulandshahr, Etah, Bijnor, Budaun, Benares, Mirzapur, Ballia, Almora and Garhwal for all enumerations. The provincial totals are affected by the changes in Saharanpur, Muzaffarnagar, Meerut, Bulandshahr and Ballia, which have lost population to, or gained it from, Delhi, the Punjab and Bihar and Orissa. The Benares and Mirzapur transfers to the Benares State created in 1911 affect the totals of British Territory, Agra Province and U. P. States. All other transfers are intra-provincial.

TABLE III.

Towns and villages classified by population.

NOTE.—Column 23 includes the moving population on the night of the census which was enumerated in places where they obviously did not live, *e. g.*, in temporary camps, on boats and trains. This fact makes it impossible to compare the figures of places given in the other columns with the figures given in Tables IV and V and the Village Directory, where such figures are included in the town or village concerned.

It should also be noted that as this table is one of inhabited sites as such rather than of separate towns or villages, it is not always possible to equate the figures given in the even columns from 6 onwards to the figures found in Tables IV and V and the Village Directory, even when the moving population has been deducted from the latter. Many urban areas have extra-urban portions, usually of villages whose lands lie partly in and partly out of the urban area. In Tables IV and V, etc., only the urban figures are shown: in this table the extra urban portion is added to them.

Cantonments are added to the neighbouring municipality where one exists, and the two are shown in a single entry.

TABLE X.

Language.

NOTE.—The arrangement of languages in Part I is Geographical : in Part II it is that of the Linguistic Survey of India, in so far as it can be reconciled with the actual returns of language made. The languages will be found arranged exactly according to that Survey in Subsidiary Table I, Chapter IX.

At this Census no attempt has been made to distinguish Urdu from Hindi. All who speak the common vernaculars of the Province have been classed as Hindostani speakers.

TABLE XIII.

Caste, Tribe, Race or Nationality.

The castes to be shown separately have been selected thus:—

- (1) The more numerous castes of 1911.
- (2) Certain castes which for various reasons it was deemed desirable to show separately. Such reasons were either ethnographical or connected with administrative convenience.
- (3) At the end of the table (Part D) the provincial totals of the main castes found in religions other than Hindu, Muhammadan and Arya are shown, with details of Christians by race, and Parsis and Jews as a single total.
- (4) The minor castes or "others" columns include both minor castes and figures which could not be definitely assigned to any particular caste. These last were very few in number.

The table therefore is in four parts, (A) Hindus, (B) Muhammadans, (C) Aryas, (D) Minor religions.
